VOL. XXVI NO. 25.

PADUCAH, KY., FRIDAY EVENING, JULY 30, 1909

TEN CENTS PER WEEK

ONLY DEED IN FEE SIMPLE POSSIBLE FOR SCHOOL SITE

People of Heath Must Place
No Conditions in Deed to
County Board.

Supt. Crabbe Lays Down Law
to Them.

MAY BE CHANGE OF LOCATION.

Unless the property owners at Heath grant the county school board a free and unconditional deed to a site it is probable that the board may reconsider its action and place the county high school at some other location in the county. A free site for the school was decided to the school board by A. P. Hill and Henry Harting, but in the deed it is stipulated that should the lot come to be used for school purposes it would revert to its former owners. State School Superintendent J. G. Crabbe has notified S. J. Hillington, county school superintendent, that such a deed cannot be accepted by the state. It was discussed at the meeting of the school board yesterday afternoon and the trustees decided to give the property owners a chance to make the change in the deed before anything towards reselling the school.

It was reported to the board that the collection of the subscription promised the board as a bonus is progressing slowly, owing to the fact that the board has not begun work on the building. As the deed cannot be accepted, the board decided that it is up to the citizens of Heath to act first by correcting the deed. However, it is not thought there will be any necessity of the board selecting a new location for the county school as it is said other property owners are ready to give a location. The plans for the building have not been completed by County Superintendent S. J. Hillington, who is drawing them, and the school will not be completed before next July or August.

High School Course.
Prof. J. S. Ragadee, principal of the high school and S. J. Hillington, county school superintendent, were appointed a committee to arrange for a course of study for the high school. The committee will arrange the course and will report to the board for its adoption.

Coal Costs 10 5-6 Cents.
Coal for the county school will cost approximately 10 5-6 cents a bushel, including the hauling of the coal. Yesterday the contract for the transportation of the coal was let to Dick Watkins for \$3.50 a day. He agrees to haul 60 bushels a load. The coal was bought from the Pittsburgh Coal company for 11 cents a bushel. However, coal for the schools in the extreme western part of the county will be purchased at Kevil as the long haul from Paducah to the schools would make the cost of coal extremely high.

School furniture and blackboards for several of the county schools have arrived and they will be installed at once.

Gliddenites

Salina, Kas., July 30.—Gliddenites left here this morning for the final leg to Kansas City. The roads are difficult and it is hot. There were no penalties on perfect scores yesterday with 212 miles for the day. There will be a grand reception this evening at Kansas City.

MANY DELIVERIES MADE ON AUTOMOBILES THIS WEEK

Foreman brothers have been delivering a great many Ford automobiles this week. In the past four days they have delivered four touring cars to Cairo buyers, two touring cars and a roadster to Metropolis, one touring car to Mayfield, one to Fulton, one to Paducah, and three roadsters to Paducah. Also one Maxwell runabout to Paducah. Deliveries are being made with more promptness from the factory now, and it is thought fully as many more Fords will be delivered next month.

President Will Sign It.

Washington, July 30.—President Taft says he will sign the tariff bill if congress passes it as it now stands. He says nobody, not even he, is entirely satisfied but the bill is a great improvement.

Powers May Interfere to Protect Alfonso on Throne of Spain—King Edward and Cabinet Talk it Over

Revolts is Spreading and the
News of Massacre at Barcelona
May Inflame People—Queen Flees.

Madrid, July 30.—Despite the capture of the main body of rioters at Barcelona, the Spanish government is still uneasy. Remaining bands are barricaded and fighting fiercely. The massacre in St. Martin's square was the most bloody in Spanish history. Machine guns mowed down the revolutionists. The details are suppressed, fearing the news will cause a general revolution.

Unless the Spanish cabinet resigns or stops the war in two days the revolution will sweep all Spain. Reports have fired the people with indignation and they are demanding the lives of the cabinet.

The mob gives the cabinet two days to stop the war, resign or be killed. The king practically is a prisoner in the palace. An attack is expected on the palace.

This city looks as if it has withstood a long siege. Scores of buildings are wrecked. The streets are blood-stained and shops are closed. People are desperate for lack of food, owing to interruption of railways and closing of factories.

Massacre at Barcelona.
It was officially announced last night that the cavalry engaged at Barcelona succeeded in driving into St. Martin Square the principal bands of revolutionists, against whom the artillery opened fire, causing great losses. The survivors surrendered.

The statement further says that it now remains only to gather small groups of revolutionists in the villages in the vicinity of Barcelona.

Thus, according to official advices, the insurrection has been checked, but at a great sacrifice of life. After fighting desperately and successfully for a long time behind barricades, the principal mobs were gradually driven to St. Martin's Square, where they found themselves entrapped. Heavy detachments of artillery and cavalry came up and surrounded them.

The artillery immediately opened fire, mowing down the revolutionists, who sought to escape, but were met at every point with shot and shell. Those of the insurgents who were not killed or seriously wounded threw down their arms and surrendered.

Mutterings for Some Time.
In Madrid, as well as in other cities throughout the country, there have been loud mutterings for a long time past, and the serious situation in Morocco gave the opportunity for the rising of the revolutionists at Catalonia in protest against the sending of further troops to that country.

The recruiting system has served to increase the dissatisfaction of the Spanish people in general. All Spaniards 20 years of age must report for military duty, but the rich usually manage to be excused. If a subsequent drawings by lot, however, they are unfortunate, they can buy exemption for \$300. Only the poor people, therefore, serve. Moreover, of recent years, in order to economize, the recruits who were supposed to serve three years in the army and three years in the reserves were given unlimited leave at the end of the year.

When the war broke out in Morocco, therefore, the battalions, with a nominal strength of 850 men, had only 200 to fill gaps, and not only were the reserves on leave recalled, but on July 26 the next year's recruits were called out. Most of the reserves are married and have children and the despair of their wives is pitiful.

The soldiers insist that the only fair way is compulsory service, which would take rich and poor alike.

"Besides," say the men, "they are sending us like dogs to be killed in Africa to please the bankers."

Queen Flees.
Bayonne, France, July 30.—Queen Victoria, of Spain, and the queen's mother are here, fleeing from San Sebastian. They are expected to continue to England.

Carlist Movement.
Harritz, July 30.—Civil war is imminent because of the threats of Don Jaime to head the Carlist movement and seize the throne.

Powers May Interfere.
London, July 30.—The feasibility of England, Germany and France aiding Spain in suppressing the Moroccan rebellion is being considered by the cabinet today. The king, who is an uncle of Queen Victoria of Spain, is alarmed. He asked the cabinet to communicate with the French and German ministers in regard to sending "mixed" reinforcements to the Spanish. He cited the action of the powers in the Boxer uprising in China. Because of France's associa-

"DEAD MAN'S CROSSING"
Memphis, Tenn., July 30.—A. R. Wamble, street car conductor, was killed and fourteen injured, one seriously, in a crash between a Frisco freight and an in-bound suburban car at "dead man's crossing" today, owing to the failure of the street car air brakes to work. J. J. Hay, fireman and W. B. Flynn, flagman, and W. B. Haley, motorman, were arrested for manslaughter.

EXACT DRAMATIC JUSTICE BROUGHT SCOTT TO PADUCAH

Deputy United States Marshal Elwood Neal returned yesterday afternoon from Mayfield, where he arrested Wallace Scott on a charge of bootlegging. Scott was taken before United States Commissioner Armour Gardner. He waived examination and gave bond in the sum of \$200 for his appearance in federal court in November for trial. The arrest of Scott was pure luck on Mr. Neal's part. Mr. Neal had a warrant for Scott and was attending police court at Mayfield yesterday morning. During the session he was going through his batch of warrants to refresh his memory, when the police brought in a man charged with being drunk. The name of Scott attracted Mr. Neal's attention and he found that it was the Scott he was after. Scott paid a fine in court and then was turned over to Mr. Neal and brought to Paducah. He is alleged to have been bootlegging in Mayfield and vicinity for several months.

Alfonso Bad Risk.
Purely for a speculation several insurance companies are taking policies on King Alfonso of Spain. Lloyd's and others place the rate at 20 per cent this morning. He is considered a bad risk.

Truce to Bury Dead.
Melilla, July 30.—A truce has been declared to bury the dead and prevent a pestilence from decaying bodies. Thousands of birds of prey surround them by day and jackals by night. The Moors have a huge funeral pyre. The Spaniards bury in trenches. There is desultory fighting, but no sortie will be made until reinforcements arrive. Desertions are frequent and more would go but for the fear of being shot down.

Reinforcements Missing.
Gibraltar, July 30.—Spanish reinforcements have not arrived and possibly are waylaid. Fresh Moors are entering the conflict constantly. The Spanish are out of munition and food. It is considered more than probable the Moors will capture the entire garrison before night. Spanish commanders are trying to suppress news of the revolution from the troops, fearing a general mutiny and desertion. The cruiser Numancia is bombarding Mount Guebara, the Moorish base of supplies.

ARMY CANNOT BUY ITS TOBACCO FROM THE TRUST DIRECT

Washington, July 30. (Specul.)—Investigation proves that the order of the secretary of war that no tobacco for the army must be bought from the tobacco trust does not mean trust made tobacco cannot be purchased. It can be bought from jobbers, but not from the trust itself.

Flour Mill Being Repaired.
The flour mills of Sam Vickers, at Himmelsburg, Ill., just opposite Smithland, are being equipped with a full set of rollers and the work is nearing completion. Mr. Ray Buckle, representing the Case Mill Manufacturing company, of Louisville, has been in Paducah several days and going to Himmelsburg daily. He left this morning at 8 o'clock in the gasoline launch Cutaway, and will return this afternoon. The improvement will cost between \$1,500 and \$2,000.

CAPTAIN HALE IS SERIOUSLY HURT AT JOHNSONVILLE

Knocked Down by Fleeing
Deckhand and Hip Fractured.

Hurried to This City and
Taken Home.

MAY BE CRIPPLED FOR LIFE.

Captain S. K. Hale, the veteran steamboatman of the steamer Kentucky, which runs from Paducah up the Tennessee river to Riverton, Ala., lies at his home at Seventh and Kentucky avenue in a serious condition as the result of an accident at Johnsonville, Ill., Wednesday night, when he was knocked down, sustaining a fracture of the left hip.

Captain Hale arrived here on the Kentucky yesterday afternoon at 5 o'clock and was conveyed to his residence in a carriage. Dr. J. Q. Taylor is attending him and, owing to the captain's advanced age, his injuries will go hard with him.

The Kentucky had landed at Johnsonville Wednesday at midnight on her return to Paducah and Captain Hale was standing on the elevator near the bank, giving orders. A burly deckhand became unruly and Mate Bob McMahon started after him with a stick. As he raised to strike, the deckhand turned around suddenly and ran, knocking Captain Hale to the floor with sufficient force to fracture his left hip bone. The deckhand fled up the bank and disappeared. Captain Hale was picked up by the crew and taken to his cabin, where he suffered extreme pain. Besides the fracture, he sustained severe bruises over the body. No medical aid being near at hand the boat was hastened to Paducah, arriving yesterday afternoon. He was removed to his home and his injuries attended to.

Captain Hale is one of the best known river men along the rivers. The injuries may disable him the rest of his life. He was resting well today and his many friends hope for his immediate recovery.

JOY RIDING GETS YOUNG MAN INTO POLICE COURT

L. L. Hager, a machinist at the automobile garage of Foreman Bros., on North Fourth street, was arrested last night on a charge of violating the ordinance by using the machine of John W. Keller without the knowledge of the garage proprietors or owner of the automobile. The warrant was sworn out by Roy Greenham, bookkeeper for the firm. He states that the auto was brought in for repairs and after Hager had gotten it in good shape he drove it to Keller. Hager said he meant nothing wrong and it was customary that a test be given machines after being repaired. His trial was set for this afternoon in police court.

Clash Between Gov. and Sheriff Expected

Little Rock, Ark., July 30.—A clash between Governor Donaghey, backed by a company of national guards, and the sheriff of Pulaski county, armed with an order of chancery court, is expected today. The court ordered the governor and

PROGRAM IS RECEIVED FOR McCRACKEN'S INSTITUTE

A general outline of the program for the McCracken county teachers' institute, which will begin August 9 and continue throughout the week has been received from Prof. T. J. Coates, of Richmond, who will preside over the meeting. The program has a large list of subjects. It is the intention to have all of the teachers join in the discussions, and in this way better results may be obtained than if a set program were carried out.

Married at Metropolis

Falling to get a license in Paducah on account of the youth of the bride-elect, Mr. Carl C. Hester, of Himmelsburg, Christian county, and Miss Martha N. Brown, of Marion, Ill., went to Metropolis yesterday and were married by Magistrate Liggett.

Payne Tariff Bill is Reported to House and it is Certain That Taft Will Sign if it is Passed That Way

Conferees at Last Agree on
Changes President De-
mand and Democratic
Members.

Washington, July 30.—In perfect form the tariff bill was submitted to the house today from Chairman Payne, the leading house conferee. It is said President Taft will sign and it will pass both the house and senate at a higher on luxuries and lower on necessities than the Dingley tariff. Chairman Payne made it an itemized table, estimating the total increase of more than \$90 millions annually.

Stocks Are Stronger.
New York, July 30.—Announcement of the report of the tariff conferees caused a big gain in strength in the stock markets.

President Wins Point.

Washington, July 30.—The Payne-Aldrich tariff bill stands completed. An agreement on all disputed points was reached last night and the conferees' report was signed by the Republican conferees. It went to the house to be voted on by that body Saturday. The senate will begin consideration of the measure Monday.

Halted by the mandate of President Taft the tariff conferees were compelled to turn back and revise their rates on lumber and gloves. In a communication to Aldrich and Payne the president demanded that the high rates on lumber be fixed by the senate should not be made a part of the report.

Surrendered to Taft.

After struggling over these questions throughout the entire day the conferees surrendered to the president's view and signed the report.

POPULAR BOAT KEEPER IS IN A SERIOUS CONDITION

Jamea Wealey, keeper of the boat at the lakes opposite the city, is in a serious condition as the result of blood poisoning, and it may result fatally. He had a boil on his left leg, and little attention was given it until it developed into blood poisoning. His acquaintances not only include a large number of hunters and fishermen, but many railroad men, as he is formerly a railroad engineer, and a member of the Brotherhood. It is probable that he will be brought to a Paducah hospital for treatment.

Father Missing; Child Dying.
Odin, Ill., July 30.—William A. Myers, who drilled the first oil well in Marion county, has been missing since last Friday. The last news was a telegram that he would be home Sunday. His six months' old baby is dying and the mother is frantic.

Clash Between Gov. and Sheriff Expected

Little Rock, Ark., July 30.—A four members of the state capital commission to appear to show cause why they should not be punished for contempt in disobeying an injunction against work on the new capitol building. It is claimed the work is improperly done. The governor says the chief executive cannot be cited for contempt. It is expected he will defend the workers with the entire state militia if the sheriff interferes.

HOT GAME OF BASEBALL IS BEING PLAYED AT THE PARK

The greatest game of the year was called this afternoon when the Lean Elks were dropped up to play a game against the Fat Elks. Owing to the extreme hot weather it was decided to limit the game to seven innings. The lean players were able to play several innings, but all the work required of the thicker brother Elks was to play one inning and take a turn at bat. Rivera began the game for the Fat team, while Richard Clements, past exalted ruler, twirled the first inning for the Leans and then returned in favor of Julius White. As the game was played for the benefit of the Home of the Friendless a large crowd, including a representation of women, was present to see the contest.

WOMAN SCHOOL HEAD.

Chicago, July 30.—For the first time in history for a large American city a woman will be elected school superintendent here tonight when the board ratifies the nomination of Mrs. Ella Flagg Young, principal of the Chicago Normal school. The salary will be \$10,000 yearly. She has taught more than 25 years.

CANDIDATES FOR SCHOOL TRUSTEES BEING NOMINATED

Candidates for school trustees in the numerous school districts have been nominated for the election, which will be held August 7. Not a sufficient number of candidates have bobbed up to make a full ticket, and the blanks are left on the ballot so that the voters in each division may write the name of any man for whom they wish to vote. The election commission are working on the list of election officers, who will have charge of the election. Much trouble has been experienced in securing the election officers to report promptly. Superintendent Billington has looked up the law and found that if there was a vacancy in the officers that the election officers present could swear in voters to qualify as officers. Should no officers report at the polls the qualified voters have the privilege of naming the officers.

The nominees are: Division, No. 1—B. J. Hoverkamp, 1; C. C. Dyson, 3; William Mitchell and George C. Powers, 5. Division, No. 2—Hollie Howie, 2; P. S. Straub, 4; J. L. Walters, 8. Sub-Division, No. 3—G. W. Scott, 3; R. S. Wilson, 5; H. S. Roby, 7. Sub-Division 1 is without a candidate. In division, No. 4, there are no candidates from sub-divisions 3, 5, 6 and 8 and in division, No. 5, there are no candidates from sub-divisions, Nos. 1, 3 and 5. In division, No. 6—W. F. Sexton, 2; Jesse Rice, 2, while sub-divisions 4 and 7 are blanks.

Tobacco Sales

Sales at the local salesrooms of the Dark Tobacco Growers' association for yesterday afternoon and this morning made by A. N. Vail, amounted to 250 hogheads. The buyers were Mathews & Son, of Hopkinton; W. B. Kennedy, of Paducah; W. G. Head and son, and Mr. Walker, of Mayfield. Lugs brought from \$4 to \$6.50, while leaf ranged from \$6.50 to \$12.

ELKS ARE RETURNING FROM WESTERN TRIP.

Mr. Charles Weille returned last night from a several weeks' tour through the west. Mr. Richard D. Clements, who went to the Elks' convention as a delegate from the Paducah lodge, is expected to return home tomorrow night. Mr. Roy Prather, who also made the trip, stopped over in Chicago on the return, and will be home today or tomorrow. He is accompanied by Mr. Weille, returned via Vancouver. Other Paducahans who attended the Elks' meeting will return home in a few days.

ATTORNEY WALTER KRONE STILL AFTER THE RIDERS.

County Attorney Walter L. Krone, of Lyon county, returned home today after a business trip here. While here he was preparing summonses upon about 70 defendants in the night rider suits of Rucker, Toomy, Gordon and Woods, which have not been settled. These will be taken to the parties Deputy United States Marshal Neal failed to catch during his trip. Mr. Neal will be in Paducah for a short time before going away on other business.

Return From River Trip.

The following party returned home yesterday afternoon on the steamer Kentucky after making the round trip to Riverton, Ala.: Mrs. Mamie Rice and son, Mrs. Charles Baker and son, Mr. and Mrs. John Baker and children, Mrs. Eva Duggan, Mr. and Mrs. M. T. Baker, Mrs. Joe Randall, Mrs. Blake and son, and Misses Vivian Edwards and Mary Ellen Rogers.

Taft Guest of Dallas Oct. 23.

Dallas, Texas, July 30.—Senator Culbertson telegraphed Mayor Hay today that President Taft will be the guest of Dallas October 23.

ASSISTANT BANK CASHIER RETURNS TO FACE CHARGES

Declares He Never Took \$110,
000 Bank Said to be
Short.

Blamed by Officials, When
He Disappeared.

QUERER CASE AT TIPTONVILLE.

Tipton, Ind., July 30.—Noah Marker, assistant cashier of the First National bank, returned to Tipton this morning after an absence of six days, denying stealing funds. He said he was frightened over the bond transaction and left to rest. He was at a fishing resort near St. Louis, he said, and he intended returning. He referred questioners to his attorneys. National Bank Examiner Weir found a shortage of \$110,000. The bank was closed Monday when the directors posted a sign: "Closed, assistant cashier gone with all cash."

Marker Arrested.

Indianapolis, Ind., July 30.—Noah Marker, the alleged defaulting bank cashier, was arrested at his home in Tiptonville this afternoon by federal officers and taken to Muncie, where he will be arraigned and his bond fixed. Recently he purchased 1,000 acres of land in Texas for \$80,000. It is believed the stolen money was spent there.

Bryan Will Not Leave Nebraska.

Chicago, July 30.—William Jennings Bryan arrived here from Bellefontaine, O., and immediately and emphatically denied the rumor that he is going to leave Nebraska and make his permanent home in Texas. He says he may make his winter home in Texas. "I am a fixture in Nebraska," he said.

Insurance Man's Neck Broken.

Little Rock, Ark., July 30.—J. G. Wood, general agent for the Des Moines Life Insurance company, today fell from the window of his office on the eighth floor of the Southern Trust building, his head striking the pavement and breaking his neck. He came from Danville, Ky.

The Heat

Partly cloudy and continued warm weather with occasional light thunder showers tonight or Saturday. Highest temperature yesterday, 97; lowest today, 82.

Following are the hourly readings from 9 until 2 this afternoon, when the maximum was reached, showing two degrees cooler than yesterday:

9 o'clock	90
10 o'clock	92 1/2
11 o'clock	93
Noon	93
1 o'clock	93 1/2
2 o'clock	95

Prostrations.

Two heat prostrations were reported in Paducah yesterday afternoon. Walter Brake, a driver of a local laundry wagon, residing at 702 South Sixteenth street, became overheated yesterday afternoon and was taken home. His condition is much improved this afternoon.

Albert Senger, an ex-policeman, was prostrated yesterday afternoon while at work at the marine ways, First and Washington streets. His condition is not serious and he is improving.

While at work yesterday afternoon Frank Augustus, a bricklayer, was nearly overcome with heat. He has been overcome with heat several times, and recognized the symptoms before he became unconscious, but was made severely sick, and was unable to be at work today. He was laying brick at a residence at Twenty third and Jefferson streets.

While working around the house yesterday afternoon Mrs. A. L. Harper, wife of Attorney A. L. Harper, of 520 South Sixth street, became overheated and for a time was in quite a serious condition. She is resting easy today and will be out in a few days.

Marshall Smith, a colored employee of large building plant of the West Kentucky Coal company was overcome with heat yesterday afternoon. Dr. J. T. Troutman attended him and he rallied, but today his condition was reported serious. Smith lives in Mechanicsburg on the south side of Island creek.

In Chicago.

Chicago, July 30.—Eight dead from heat and three from lightning. There is little promise of relief. The weather prediction is warmer.

"Baby's Never Ill"—Remedy FREE

Summer after summer Dr. Caldwell is in receipt of hundreds of letters from mothers all over the country thanking him for keeping their children in good health these hot days. The way is simple for any mother. If the child breaks out with sores, if it scratches itself, if it has no appetite and doesn't sleep well, if its bowels are constipated or too loose, do not become alarmed, but try a dose at bedtime of **DR. CALDWELL'S SYRUP PEPsin**. There is no remedy so effective in the digestive ailments of children, and so well liked by them for its pleasant taste and non-gripping, than this very same **DR. CALDWELL'S SYRUP PEPsin**. Ask the druggist who has your confidence and he will tell you that more mothers are buying this remedy today than any other. It is not to be compared to the ordinary laxative, because this contains tonic properties that help to build up the child; nor is it to be compared to salts and purgative waters, for they do but temporary good, act on tablets or pills, which often grip and are difficult to take. It is especially the right remedy for women and old folks because of its gentle action. Your druggist will sell you a bottle for 50 cents or \$1.00, according to size.

Billington and Lookofsky Are Put Under Bond to Keep the Peace.

It was a mixed up affair when two shoe repairers, one an American and the other a Russian, were heard in police court this morning. J. Raymond Billington was charged with charging and abusing Joe Lookofsky and was fined \$5. Both were put under a peace bond of \$300, each to not interfere with each other's affairs.

Both conduct shoe shops in a small building at Eleventh street and Broadway. Two weeks ago Billington sold out to Lookofsky and went to Illinois for his health and to work. Finding business dull there he risked his health and returned to Paducah and opened up a shop beside Lookofsky. Yesterday the foreigner claims Billington cursed him for cutting prices on shoe repairing. He swore out a warrant for the latter.

PAYNE TARIFF BILL REPORTED

(Continued from Page One.)

The leaders intend to push the report through the house in one legislative day. Probably a week will be required to dispose of the report in the senate.

When the conferees fixed the lumber and gloves rates yesterday by shading very slightly higher rates on each, they were so certain that the president would consent to the arrangement that notices were sent the Democratic members of the conference committee to be present at 10 o'clock today to approve or disapprove of the conference report. The president had other ideas of what the rates should be and he expressed himself very forcibly in a letter. He said lumber should not be more than \$1.25 a thousand for rough, with the differentials fixed by the senate on finished lumber. He declared also that the senate rates on gloves, which are the same as the Dingley rates and much less than the house rates, would have to be adopted in order to obtain his endorsement.

President's Reminds.
Not content with issuing an injunction against high rates on these articles, the president specified that hides must go on the free list and the house rate on manufacturers of leather reduced. Hosiery too, he thought, should be reduced below the house rates which were advances over the Dingley duties.

It was not until after the Democratic members had assembled that the white house communication was received at the conference chamber. Aldrich read the president's missive and called his Republican associates to an adjoining room. The contents of the letter were discussed at some length and it was decided that the minority should be informed that the conference report had not been advanced to the state where it could be submitted to them for their judgment and they withdrew.

Democrats Had Conference.
The Democrats afterward held a conference of their own. The Republicans were criticised but Bailey came to their defense by calling attention to the fact that if the Democrats were in power and were charged with the responsibility of making the tariff bill, they would not want the Republicans to help them. The minority was further modified by Champ Clark of Missouri, being called back to the chamber. He was given a copy of the bill as the conferees intend to report it, except for the schedules discussed by the president in his letter. The Democrats then went into session.

The minority were in the conference chamber less than an hour. At the outset, Griggs, speaking for his associates, said they were not disposed to delay the proceedings. He suggested that if the Republicans would consent to putting cotton bagging on the free list they would show the utmost celerity in bringing the conference report to a vote.

Many conferees were disposed to grant this request, but McCall, of Massachusetts, protested vigorously

on the ground that it would injure the manufacturers in his state, which turn out cotton bagging. So emphatic were his objections that it was seen that an agreement would be delayed if such action were attempted.

The Republican members continued in session after the Democrats left the chamber.

Common Capitulatives.
Late in the day Fordney and Callender went to the white house, then to Speaker Cannon's office and then back the conference chamber, and afterwards conferred with a number of northwestern senators who were interested in the lumber question. Later Cannon entered the conference room. Cannon has been one of the chief supporters of the house rates on gloves. When the speaker concluded his visit he hurried down the corridor without stopping. The speaker was an unmistakable air of a man who had capitulated before a superior force.

There was no opportunity to compromise on gloves. The president said the rates must not be advanced beyond the figures named by the senate bill, which are the same as the existing duties except for the fact that Schumacher gloves were reduced by the senate from \$1.75 a dozen to \$1.25.

The Lumber Rates.
On lumber some concessions were made, in spite of the fact that the president's instructions were complied with to the letter. Rough lumber was made dutiable at \$1.25 per thousand feet; finished on one side, \$1.75; two sides or one side planed and tongued and grooved, \$2.15; three sides, \$2.52½; four sides, \$2.90.

To conciliate Senators Piles and Jones the conferees adopted the senate rates of 50 cents a thousand on shingles instead of the house rate of 20 cents. In order to obtain the support of Senator Heyburn the industries of whose state had been neglected through the abolition of duty on hides, reduction in the duty on lumber, and reduction in the differential on pig lead in bars, the latter schedule was reconsidered and the rate of 2½ cents per pound on pig lead in bars restored.

Tallow Is Taxed.
In view of the action of putting hides on the free list a concession was made to the cattle industry today by taking tallow off the free list and making it dutiable at 1½ cents per pound. The rates on hosiery were fixed by increases of about 20 per cent in grades valued at \$1, \$1.50 and \$2 a dozen pairs. This is an increase over the existing rates, but a material decrease from the advances made by the house. On all other values of hosiery the Dingley rates, which had been re-enacted by the senate, were retained. This action the conferees believe was in conformity with the spirit of the president's request.

Increase or Decrease?
The minority members of the conference were in session most of the afternoon. Comparisons made by the tariff experts, they say, show that the new bill will be an increase of from one to three per cent over the advances of the Dingley law. It is understood that in reaching this calculation the experts did not take into consideration the transfers of articles from the dutiable to the free list, which the Republican conferees say would reduce the average ad valorem considerably below those of the existing law.

SCHOOLS

ARE ALL REPAIRED AS TO THE ROOFS AND EXTERIOR.

Superintendent of Buildings Fred Hoyer is Getting Ready for Opening.

Repairs to the roofs and exterior of the public school buildings has almost been completed by Fred Hoyer, superintendent of buildings, and next week he will begin the work of putting the finishing touches to the interior of the buildings. This summer there has been a large amount of repair work, necessary to place the buildings in condition for the opening of school in six weeks. As soon as the interior repairs are completed Mr. Hoyer will leave on his vacation, which was granted him by the board. He will enjoy his rest hunting and fishing up the Tennessee river.

President Helps Orphans.
Hundreds of orphans have been helped by the President of The Industrial and Orphan's Home at Macon, Ga., who writes: "We have used Electric Bitters in this institution for nine years. It has proved a most excellent medicine for stomach, liver and kidney troubles. We regard it as one of the best family medicines on earth." It invigorates the vital organs, purifies the blood, aids digestion, creates appetite. To strengthen and build up thin, pale, weak children or run-down people it has no equal. Best for female complaints. Only 50c at all druggists.

Comet Wine.
Being within measurable distance of the reappearance of Halley's comet reminds us of the wine of superior quality is known as "Comet wine." A notion prevails that grapes in the comet years are better in flavor than in other years. This may be because the weather is warmer and ripens them better. Or it may be that the comets themselves exercise some chemical properties over them. Thus the wines of the years 1811, 1826, 1839, 1845, 1852, 1858, 1861, etc., have a reputation.—London Globe.

JUST 1 MORE DAY LEFT THIS WEEK FOR BONUS VOTES

This is Last Offer That Will
be Made in the Big
Contest

Which Will Close With The
End of Next Week.

UTILIZE EVERY MINUTE OF TIME

Prizes and Distribution.
Grand Prizes—First \$1,000 auto-
mobile; second, \$500 automobile;
third, \$250 in cash.

District prizes—First, \$400 piano;
second, \$100 bed room suite; third,
\$75 business college scholarship.
The first grand prize is to be awarded
to the candidate having the greatest
number of votes in the entire contest,
irrespective of district. The second
grand prize will be awarded to the can-
didate having the second highest num-
ber of votes in the entire contest, and
the third grand prize to the candi-
date having the third highest number.
The district prizes will be awarded the
contestants having the highest number
of votes in their respective districts.
After the grand prize winner will
not be allowed to win a district prize,
and in districts where grand prize win-
ners reside, the contestants having the
next highest number of votes will be
declared the highest in that district
and the winner of the first district prize.

Just one more day this week in
which to get the extra bonus votes.
Yes, but candidates should be hand-
ling, and the real five ones are.
Every moment is the supreme mo-
ment from now on, and this is what
the contest department wants every-
one to understand. Napoleon said
great storm upon that "supreme
moment," that "nick of time" which
occurs in every battle, to take advan-
tage of which means victory, and to
lose in hesitation means disaster. He
said he beat the Austrians because
they did not know the value of five
minutes, and so with those great
truths in mind we would urge candi-
dates to utilize every moment's time
until the close of the Great Contest.

REMEMBER, this is the last bonus
offer, and just one more day in which
to take advantage of it. Next week
there will be no offer made, and if
you would be wise, get busy tomor-
row and make it the best day of all
the contest.

HUSTLE AND BUSTLE

MR. CHARLES WELLS TELLS
ABOUT WESTERN COUNTRY.

He Realizes How Those Western
Towns Grow So Rapidly and
Surely.

Mr. Charles Wells returned yester-
day afternoon from a trip through
the west, where he attended the Elks'
convention at Los Angeles, and visit-
ed Denver, San Francisco, Vancouver,
Portland, Seattle and the Yukon ex-
position, and like all travelers in that
country, he returned home lacerated
with the western fever germ.

"That country is all they claim for
it," he said today, "and after a visit
to most of the rapidly growing cities
it is easy to see why they attain their
growth. There is hustle and bustle
and enterprise in the great measure
on tap on all occasions. They are
glad to see visitors and make it a
point to impress them with their com-
munities with object of inducing im-
migration. As an evidence of the way
they treat you, I dropped into a store
in Vancouver and told a polite clerk
who greeted me that I was just sight-
seeing, and presented my card. I
went through the place and then to
my hotel and in less than 30 minutes
I was waited upon by a delegation
from the Business Men's League, who
showed me all the points of interest
in the city. Before they turned me
loose they took the occasion to ask
me out to locate. 'Come on,' they
said, 'there is room for you.'"

Mr. Wells was held up some time
going out by a washout on the Rio
Grande railroad. He says there were
ten sections of trains within sight of
where his train was stopped and as
far as the eye could see each way
there was coach after coach. Mr.
Roy Prather, who went with Mr.
Wells, stopped off for a day in Chi-
cago.

PEYTON DECLARES NO OTHER MAN SHALL SEE HIS WIFE.

Emmett Peyton was fined \$50 for
breach of the peace yesterday after-
noon before Magistrate C. W. Emery
and acquitted of a charge of carrying
concealed a deadly weapon. The cases
were tried by a jury and held in the
police court room at the city hall.
Peyton was found guilty of striking
his wife in the month out at Wallace
park two weeks ago. Although Pey-
ton and his wife are separated and he
has sued for divorce, he declares no
other man shall pay her attention in
the meantime.

Nordlie's Favorite Song.

Which are the songs I most enjoy
singing? How shall I name them?
They are so numerous! Yet I sup-
pose some must stand out more
pleasantly in the memory than others.
There is "Caro Mio Ben," for ex-
ample, which has for me very many
pleasant associations. It is a favorite
also with the friends who come to
hear me sing—my audience—and
perhaps that is another reason why I
like it. I am very fond of Italian
songs—how well the Italian com-
posers suited their compositions to
the concert room!—and among them
I may select "Caro Mio Ben" as oc-
cupying a very warm corner in my
heart.—Lillian Nordlie in the Strand.

It is scarcely compatible with the

truth to call the woolen mills,

workless.

We begin to fear Alice Roosevelt

Longworth is inclined to follow her

father's example, rather than his ad-

vice.

That Baltimore judge, who dis-

missed Senator Stone for striking a

Pulman waiter, recognized the fact

that when a gentleman asks for more

water for his "Scotch," he needs it

badly.

Of course, Baron Rothschild under-

stood his own son; but the average

parent would not dare attempt to dis-

courage the matrimonial aspirations

of a son by representing the object

of his affections as a stage dancer.

Drum-Major shakos are to be

the style in women's headgear this

winter. The height of fashion will

be about eighteen inches. The good

point consists in the fact that the

style requires the hair to be done up

in a little ball on top of the head,

which will not obscure the vision at

the theater.

Consistently with the Evening

Sun's expressed purpose of putting

the interest of the city above that

of party, we today publish both Democratic and Republican tickets for

county and city offices, inviting

voters to investigate the candidates,

and select those best fitted for the

offices.

UNIFORM ACCOUNTING.

No more important subject has

been called to the attention of the

tax payers of Kentucky than that of

"Uniform Accounting," which was

exhaustively discussed by State In-

spector M. H. Thatcher before the

Kentucky State Press association at

East Springs. So important is it that

William Allen White, one of the

most acute of contemporary observers

of politics, declares in a series of

articles now running in the American

magazine, that the first step to-

ward fiscal reform is the adoption of

a uniform system of keeping public

accounts. Several progressive states

already have adopted the plan.

How true Mr. White's words are

can be appreciated by a little consid-

eration, and Mr. Thatcher in his

speech made plain the necessity in

Kentucky. It is not only to prevent

theft by public officials, but to pre-

vent waste of public money and en-

able counties and cities to accurately

compare their expenditures and re-

venues with others more or less sim-

ilarly situated. Moreover, by regular

inspection of state, county and city

books, accurate detailed public re-

ports can be made up each year, thus

interesting taxpayers in public affairs.

As one thinks of the matter squarely,

it is rather hard on the taxpayer to

declare he is negligent in not keep-

ing in touch with the public business,

when the newspapermen know that

under the present system they cannot

keep up with public plunder and ex-

travagance, because they have no

means of access to the books, have

not the time to study them, and

would find them all so different and

complicated that they could gain

nothing from the books if they were

to examine them. If reports were

published every year, whether there

was suspicion of crookedness or not,

the taxpayers would soon be able to

judge how their money was being

spent.

Just now, of course, with the chief

clerk of the last state auditor in the

penitentiary, and about 100 of the

119 county court clerks repaying

money improperly taken from the

public during eight or ten years, and

several sheriffs under a cloud, Ken-

tucky can appreciate the necessity for

rigid supervision of public accounts;

but these other considerations far

outweigh the mere prevention of

theft.

In his speech Mr. Thatcher says in

part:

"Uniform accounting" in its full

sense, and as we hope, by law, to

apply it in Kentucky, means that all

accounts showing the receipts or dis-

bursement of any character of public

revenues by state officers, as well as

by officers of counties, cities, towns,

school districts, and other taxing

subdivisions or units within the state,

shall be classified, systematized and

kept uniform in all offices of the

same class.

It means that every penny of public

money, by whomsoever received,

and by whomsoever and for what-

ever purpose disbursed, shall be the

subject of a prescribed entry; an

entry that shall be exactly alike in

form to every other entry in the other

similar offices in the state dealing

with similar public money.

"If we enact such a law, it means,

for instance, that the accounts of all

the sheriffs in Kentucky, will be

classified and kept alike; and the

sheriff of Estill county—if he will

keep his accounts as directed—can go

into the sheriff's office in Madison

county, or into any other sheriff's

office in the state and if accounts are

there kept as prescribed, he can un-

derstand them as well as his own.

Similarly, the accounts of every other

class of public officers will be kept

under a like system of uniformity.

Uniformity means invariability, even-

ness, consistency, regularity.

"Inspection," in its full sense, and

as we hope, by law, to apply it in

Kentucky, means that the accounts of

every public office and department in

the state, whether of state, county,

city, town, school district or other

taxing sub-division or unit, shall be

rigidly and in a strictly non-partisan

way, examined under the supervision

of a state bureau of inspection, at

timely intervals—usually once a

year, but without notice—and due

report thereof made, published, and

disseminated for public information

and advantage.

"The requirements as to classifica-

tion and uniformity of all public ac-

counts (1) methodize all public

offices (2) train public officers to the

strictest, simplest business systems;

(3) educate those officers to a cor-

rect understanding and application of

the laws and ordinances; (4) render

the inspection of such offices a com-

paratively simple matter, and (5)

enable the compilation of complete

and accurate data for educational,

comparative and financial purposes.

"This annual report will contain

the full, accurate history of every

county, city, town and taxing district

in the state for the fiscal year. Thus

it will be known how much each

county of the state collects in various

revenues; how much each expends for

bridges, for culverts; how much for

roads; how much for criminal pro-

secutions; and how much for each and

every other class of county expense.

"Similarly, it will be known how

much revenue is collected in each city

or town of the state, and how much

each expends for streets, how much

for bridges, how much for police and

fire protection, and how much for

each and every other kind of municipal

expense."

THE PUBLIC FORUM.

Memphis-Commercial Appeal.

Our Democratic senators have been

reduced to a skeleton regiment in

Washington.

Senator Bob Taylor is out a lectur-

ing and several other Democratic

senators are at home. Senator Davis

is at home trying law suits and dodg-

ing stry bullets. Other senators are

at home practicing law or attending

to private business.

Some of them say the tariff bill is

"fixed," and nothing they could do

would change it. Probably they are

right as to the tariff bill, but the

same remark applies to their general

usefulness in Washington.

The fact is that the Democratic

minority of the senate is disorgan-

ized, run-down-at-the-heel and gener-

ally of no account. There are three

or four good men among them, but

their association with the others has

caused them to lose heart and be-

come hopeless of accomplishing any-

thing for their party or their people.

WOMAN BEGINS LONG WALK

Mrs. Christina Schneider, of St. Louis, hopes to win \$500.

St. Louis, July 30.—Representing the American woman as a pedestrian, Mrs. Christina Schneider 1436 Swan avenue, started from Fourth street and Washington avenue at 9:04 a. m. Wednesday to walk 1,300 miles to Boston and win a wager of \$500.

She carried an umbrella to save her complexion and a fan to keep cool. Her husband, H. C. Schneider, who accompanied her to keep the dogs and transpire away, carried a suit case containing their extra apparel.

Mrs. Schneider, an athletic woman of 26, expects to reach the Hub in 45 days. After that she proposes to walk to New York, Philadelphia, Baltimore and Washington.

The Schneiders crossed the Eads bridge and are following the Wabash tracks to Chicago. They expected to reach Stanton, Ill., 38 miles, Wednesday night. Their proposed route is by way of Chicago, Detroit, Buffalo, Rochester, Syracuse, Albany and Boston.

Mrs. Schneider has been a good walker and is confident she can accomplish the proposed journey.

Mrs. Shaw Will Sue.

New York, July 30.—Evelyn Shaw said she will sue for divorce at the close of the present trial. She will not go to Reno, Nev., but will sue in New York.

WHEN WILL TARIFF BECOME THE LAW?

QUESTION THAT HAS INTERESTED AUTHORITIES.

Does It Take Effect When Congress Enacts Or When the President Signs It?

HOW THE LAWS ARE WOBBLED

Washington, July 30.—Supposing the Payne-Aldrich tariff bill is agreed to by both houses and signed by the president, when does it actually become effective—on and after the minute the president affixes to it his signature, or when notice of that fact is given to both houses of congress?

That query appears, on its face, to be of small consequence in the long run, but, as a matter of fact, there is likely to be considerable litigation over it before the answer is finally given. One way or another, the reply is bound to mean at least thousands of dollars in or out of the pockets of the importers.

The new tariff bill, as it will probably be signed by President Taft, declares "That on and after the day following the passage of the act . . . there shall be levied, collected . . . The Dingley law provided "That on and after the passage of this act . . ."

After the president had signed the Dingley law the question arose, "exactly when did the law go into effect?" It was a query of vital importance to many importers; big shipments of goods might have arrived a few minutes after the law was signed the duties on which were increased by the new law. A shipment might escape application of the higher duties by fifteen minutes.

The question was not settled until after endless litigation and the bringing of one case to the supreme court of the United States, which held that the Dingley act became a law at six minutes after 4 o'clock on July 24, 1897—which was the exact time the president signed it.

Just now there is a prospect that the same litigation may follow the signing of the Payne-Aldrich bill by the president. In the house bill, the language of the Dingley law that the measure should be effective on its passage was used; in the senate it was changed to "the day following its passage." If the conferees agree to the house wording, some official will be sure to be on hand to note the exact minute President Taft signs his name to the bill; and if the language of the senate is agreed upon, there is the possibility that there will be a legal fight to determine whether the "day following" means just twenty-four hours from the signing of the bill, or what.

Already importers are hurrying cargoes of goods from abroad to this country to escape increases in the duty. Importers of wines and liquors are scurrying now to accumulate stocks in this country before the higher rates of the new law become effective.

The passage of a new tariff measure means the hardest kind of work for the customs officials of the treasury department. It means a readjustment of every condition; new administrative problems to be worked out; every employee must have the new rates at his finger tips and new regulations must be devised. There will be no vacations among the customs employees during August. They will all be too busy.

Meanwhile the lawyers who specialize in customs cases are laying to in the office ready for a harvest of business. They are of the small minority who hail the advent of a new tariff measure with joy. It means money to them.

Engineers' Strike Averted.

Nashville, Tenn., July 30.—An understanding was reached tonight between the Tennessee Central Railroad company and its locomotive engineers whereby the probability of a strike of the engineers is averted. General Manager Clark explained to them his order requiring the engineers to undergo an examination, and it became effective, under agreement, September 1 instead of August 1, as originally issued. September 1 is the date on which similar examinations are to be held by a number of roads throughout the country.

Killed By Auto.

Chicago, July 30.—Mrs. Parker Winfield Keer is dead and W. S. Mills, owner of a tailoring establishment, and Harvey Hefer were injured in an automobile accident last night. The machine turned turtle near Libertyville, Ill., skidded and hit a bump Mrs. Keer's neck was broken.

Presence of Mind.

Mr. Phan (roaring from the top of the stairs).—Mildred! What is that young man doing down there so late? Mildred (sweetly).—He's just doing out how the teams will finish for the pennant.

Mr. Phan (mollified).—All right. Tell him to take his time, not over-looking past performance and the possibility of a slump, and when he gets done he can compare with my list behind the clock on the bookcase.

THIN FOLKS MADE FAT.

Good, healthy flesh can only be gained by the use of the proper food, together with natural action of the organs of assimilation. Nine people out of ten in order to weigh as much as they ought and be perfectly healthy, should use Samose, the great flesh-forming food and health restorer. Weigh yourself before commencing to use these little tablets, and see how your weight increases from week to week.

Samose does not contain a particle of starch or pepsin, nor is it any nauseating preparation, such as is usually recommended to make people fat, and which does not build up good healthy tissues. Samose has valuable flesh-forming properties, tones up and strengthens the whole system, helps the food that is eaten to be assimilated in a natural manner, and absolutely restores health to all the organs.

If you are not perfectly satisfied with the results from Samose, it is W. Walker & Co. will return your money without any quibbling. Sent postpaid on receipt of price, 50c.

WOMAN'S NIGHTMARE

No woman can be happy without children; it is her nature to love them as much as it is the beautiful and pure. The ordeal through which the expectant mother must pass is so full of dread that the thought fills her with apprehension. There is no necessity for the reproduction of life to be either very painful or dangerous. The use of **Mother's Friend** prepares the system for the coming event, and it is passed without any danger. This remedy is applied externally, and has carried thousands of women through the crisis with but little suffering.

MOTHER'S FRIEND

Found Buried in Mud of Rivers and in Great Northern Swamps.

Discussing the production of Ivory Vladimir Fedoroff, of St. Petersburg, Russia, said Siberia furnishes a large quantity of ivory to the markets of the world, but that the production

of it belongs to another age and to a species of animal that does not now exist.

The ivory is cut from the tusks of mastodons whose skeletons are found frozen in masses of ice or buried in the mud of Siberian rivers and swamps. The northern portion of the country abounds in extensive bogs which are called urmans. In these are found the tusks of the mastodon, from which it is inferred these animals lost their lives venturing upon a surface that would not bear their weight.

Even to wild animals these urmans are forbidden ground. The nimble stepping, broad hoofed reindeer can sometimes cross them safely in the summer time, but most other large animals attempting to do so would quickly be engulfed, and this may be a partial explanation of the remains of the mammoth and the rhinoceros which are so abundant and so widely diffused through the northern marsh lands of Siberia.

In the museum of Tobolsk are numerous specimens of mammoth and throughout that region they are by no means rare. When an ice pack breaks down a river bank or floods break up a frozen marsh or the summer thaw penetrates a little more deeply than usual into the ground some of these ante-diluvian monsters are likely to be exposed.

In many cases the remains are so fresh and well preserved, with their dark shaggy hair and underwool of reddish brown, their tufted ears and long, curved tusks, that all the aborigines and even some of the Russian settlers persist in the belief that they are specimens of animals which still live, burrowing underground like moles and dying the instant they are admitted to the light.—Washington Herald.

As he hummed the way along,
"I wonder why the mocking bird
Don't imitate my song.

"But the man there n'eth the cover-
let.
He's giving me an encore—
Just here him clap his hands!
It's music I was born to teach.
But keep me from my pupils' reach!"

FAMILY CURED OF SKIN TROUBLES

Two Little Girls had Eczema Very Badly—In One Case Child's Hair Came Out and Left Bare Patches—Father's Head Sore from Childhood—In All Three Cases

CUTICURA MET WITH ITS USUAL SUCCESS

"I have two little girls who have been troubled very badly with eczema. One of them had it on her lower limbs. I did everything that I could hear of for her, but it did not give in until warm weather when it seemingly abated. The next winter when it became cold weather the eczema started again and also in her head where it would take the hair out and leave bare patches as large as a quarter of a dollar. At the same time her arms were sore the whole length of them. I took her to a physician and he said that she had two distinct types of eczema. I continued with him for several weeks and the child grew worse all of the time. Her sister's arms were also affected in the same way. My husband came home one day with a box of Cuticura Ointment and a cake of Cuticura Soap. I began using them and also the Cuticura Pills and by the time the second lot was used their skin was soft and smooth as it had not been before for the winter. We kept the Cuticura Soap and Cuticura Ointment constantly by us and when any little roughness or irritation appeared on their skin I quickly doused it with the Cuticura Remedies. My husband has used them with most satisfactory results for a sore head which has troubled him from childhood. Mrs. Charles Baker, Abilene, Mo., Sept. 21, 1908."

Cuticura Ointment is one of the most successful remedies for torturing, disfiguring humors of the skin and scalp, including loss of hair, of infants, children and adults, ever compounded. In proof of which a single anointing with it, preceded by a hot bath with Cuticura Soap, and followed by mild doses of Cuticura Pills, is often sufficient to afford immediate relief in the most distressing forms of itching, burning and scaly humors, eczema, irritations and inflammation, pruritus and sleep and point to a speedy cure when all else fails.

Cuticura Soap (25c), Ointment (50c), Pills (50c), are sold throughout the world. Cuticura Drug & Chem. Corp., Sole Importers, 137 Goldman Bldg., New York City. See also Cuticura Book on Skin Diseases.

IN ST. LOUIS TO ESCAPE RIDERS

JUDGE HARRIS, WHO ISSUED REEFoot INJUNCTION.

With Small Son He Guarded Lives of Family By Standing Watch in Relays.

HIS WIFE ACCOMPANIES HIM

Harried by the unceasing threats against his life, which, time and again, has been jeopardized by the bullets of unseen enemies, Judge Harris, of Union City, Tenn., whose injunction against fishing in Reeffoot lake formed the foundation of night rider outrages, has sought refuge from his enemies in St. Louis, says the St. Louis Times.

He is registered at the American hotel, and is accompanied by his wife and secretary, J. P. Ahmanson. Judge Harris has no first name, his wife says. While Judge Harris denied himself to visitors, his wife was not loath to say that it was owing to the unceasing threats of the night riders that he had come to this city.

The history of the injunction against fishing in Reeffoot lake is punctuated liberally with murder and outrage, and it was necessary on one occasion for the Tennessee troops to be called out in an effort to quell the disorder.

Reeffoot lake had for years been the public fishing ground of the residents of Tippecanoe, Tenn. Hundreds of families existed on the fish which they caught there.

Finally the West Tennessee Land company purchased the property which enclosed the lake, and demanded a tax on each fish caught in the waters. This was resented by the populace, and finally a writ of injunction against fishing in the lake was issued by Judge Harris.

This aroused a storm of indignation, and the night riders began their depredations. In armed bodies they went from neighborhood to neighborhood, flogging residents and burning the buildings of those connected in any way with the land company that controlled the lake.

Many fled in terror from the community after being warned by the riders. The culmination of the outrages came when Judge R. Z. Taylor and Capt. Q. Rankin, attorneys for the land company, were taken from their hotel at Walnut Log by night riders. Rankin was hanged and shot by the mob, but Taylor managed to escape.

More than 100 men were arrested for complicity in the crime, and several of them were convicted, eight being given the death penalty.

During this period threat after threat was made against the life of Judge Harris. He was in constant dread of assassination, but stuck to his post. So intense was the feeling against him from the night rider element that it was impossible for him to have a light in his house at night, and he and his son took turn about watching a rifle on their knees.

The father would watch from 6 o'clock until midnight and then the son would take up the vigil until dawn. Judge Harris was fired on a number of times, but the shots always went wide.

Of late these annoyances have not been so numerous, according to Mrs. Harris, but it was thought best for her husband's health that they come to this city.

Judge Harris is about 5 feet 6 inches tall and has a long, drooping mustache, which attracts attention. His health is broken, due, it is said, largely to the threats of the night riders.

Tallest Soldier.

H. C. Thurston, of Mount Vernon, Tex., is among the veteran visitors in Memphis and is the tallest of the thousands of old soldiers who are living over the days of '61-'65. He is seven feet seven inches in height, weighs 233 pounds and is 77 years of age. Mr. Thurston was born in South Carolina, reared in Missouri, where he enlisted in Company 1, Price's command of Burbridge's regiment of Marmaduke's brigade of Missouri cavalry, serving as a private. He was wounded in one engagement in the right side and now wears the cross of honor. The lengthy veteran is a widower, and despite his age is still in the matrimonial market. His only son is six feet five and a half inches tall and from present indications his grandson will be as tall as the grandfather.—Memphis Commercial Appeal.

Education.
Boys are hard to educate; what's good for a boy is pay for less than his father can pay for and more than his mother thinks his constitution will stand. The public schools are about right for boys, but most people prefer private schools, where their sons won't be gayed if they travel in special cars and have a valet or two apiece.

Girls are easier—for the reason, no doubt, that a woman who knows how to play bridge and smoke cigarettes can always make a figure socially.

In addition, however, girls from a first-class finishing school are able to tell good smoking-room stories.—Puck.

AFTER FOUR YEARS OF MISERY

Cured by Lydia E. Pinkham's Vegetable Compound

Baltimore, Md.—"For four years my life was a misery to me. I suffered from irregularities, terrible dragging sensations, extreme nervousness, and that all gone feeling in my stomach. I had given up hope of ever being well when I began to take Lydia E. Pinkham's Vegetable Compound. Then I felt as though new life had been given me, and I am recommending it to all my friends."—Mrs. W. S. Foltz, 1098 Lansdowne St., Baltimore, Md.

The most successful remedy in this country for the cure of all forms of female complaints is Lydia E. Pinkham's Vegetable Compound. It has stood the test of years and today is more widely and successfully used than any other female remedy. It has cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, and nervous prostration, after all other means had failed.

If you are suffering from any of these ailments, don't give up hope until you have given Lydia E. Pinkham's Vegetable Compound a trial.

If you would like special advice write to Mrs. Pinkham, Lynn, Mass., for it. She has guided thousands to health, free of charge.

AUBREY MIMMS

HURT WHILE "JOY RIDING" ON L. C. FREIGHT TRAIN.

Lumber Shifted in Car When Engine Stopped, and Crushed His Fingers.

While riding a freight train yesterday afternoon, Aubrey Mimms, 15 years old, injured his right hand when the train was stopped quickly in Kevil. Three fingers were crushed and the hand mangled, but it is hoped to save the hand. Mimms is the son of Frank Mimms, 125 North Sixteenth street, and an employee of the Illinois Central railroad. He was standing in the car loaded with lumber, when the train was stopped, and the lumber moved, catching his hand. Trainmen extracted the hand, and he was brought to the Illinois Central railroad hospital for treatment.

TRAIN AUDITORS

WILL COLLECT TICKETS AND FARES FOR I. C.

Report That the Company Will Re-lieve Conductors—Mr. Neuffer Resigns.

Auditors will be placed on the passenger trains of the Illinois Central railroad to relieve the conductors of the collection of tickets and cash fares, according to the rumor that the railroad men have picked up. No official announcement has been made, but it is expected that the change will become effective some time in August. This will leave the conductors free to look after the safety of the passengers, take orders and look after the train in general. The auditors, it is said, will be changed every month or two, as the government changes the gaugers. By the new method the railroad officials will be enabled to keep a closer check on the fares, and it is said that the railroad officials have declared they can pay the salary of the auditor and still make a better showing than under the present system of collecting fares.

J. G. Neuffer Resigns.

Official notice was received this morning to the effect that J. G. Neuffer, superintendent of machinery for the Illinois Central railroad, had resigned. Rumors to the effect first reached the local officials last night. Mr. Neuffer with his assistants, R. W. Bell and J. E. Baker, are well known in Paducah, as they make frequent inspection trips to the shops. The position of superintendent of machinery will be abolished and both the assistants will be advanced. Mr. Bell will be made superintendent of rolling stock, while Mr. Baker will be made superintendent of locomotive power.

Mr. Neuffer has been with the Illinois Central railroad for about four years, having succeeded Mr. Renshaw. He came to the Illinois Central railroad from the Baltimore & Ohio railroad, where he served as machinist.

SUPPLY OF ARMY HORSES

Not Equal to Demand in England, French and German Stables.

The adequate supply of horses for the army, it would scarcely be denied, is as essential to its efficiency as men and guns. Yet in this vital particular the government, as in so many other questions relative to the defense of the country, have utterly failed to realize their responsibilities.

Sir Gilbert Parker is raising the point in one of its important aspects in the house of commons. He has notice to call the attention of the secretary of state for war to the fact that German agents are extensively buying three-year-old horses suitable for army purposes in England, Ireland and Wales.

"There is no use disguising the fact," said an expert on English horse breeding, "that the country is rapidly being denuded of its best horses, and the position is becoming acute."
"It is a regulation of the war office that horses shall not be bought under four years old. This is the foreigner's chance. Not only the Germans, but practically every continental country, has agents bent on securing the very pick of the available three-year-olds. They purchase especially young mares, which, of course, do not return to this country. They are, therefore, reducing, both in quality and number, the supply of four-year-olds obtainable by the home authorities."

"The German and French governments realize the value their own government breeding establishments and encouraging horse breeding by subsidy. I believe France pays something like 300,000 francs a year in this respect. Then they take a great care that only good stallions are employed."

"The principal cause of the alarming scarcity—for I am convinced if war broke out tomorrow we have not a sufficient supply for the army—are the unprecedented buying of young horses by foreign agents, the fact that farmers are more and more giving up the breeding of horses, the increase in mechanical traction, and the heavy demand for horses during the late South African war."—Pall Mall Gazette.

A New Game in Paris.

A new game of the diabolo type is springing into favor in Paris, and, as the English patents have been taken out, "La Punda" will no doubt be seen before long in London. La Punda is a new form of sling, as its name shows. A little bag on a wooden framework is fixed on a swivel into a sort of tennis racket, without strings or top. The bottom of the bag is open, and two strong india rubber bands prevent the ball—a tennis ball—from falling through. The game is to sling the ball from one player to another or up into the air, to be caught by the same player at will. It needs a certain amount of skill, and is certainly less dangerous and just as healthful as diabolo. The inventor is a young German named Seeger, who, in a demonstration which he gave, threw a tennis ball higher than the chimneys of a seven-story house and caught it again without apparent effort.—Paris Correspondence London Express.

SARAH McCURE IS ORDERED TO LEAVE PADUCAH.

Her Husband Arrested and Fined in Police Court for Being Drunk.

Sarah McCure, who was given hours to get out of the city by Police Judge D. A. Cross a short time ago, was up again in police court this morning and the same orders were repeated. But Judge Cross made it stronger by fining her \$50 and suspending the judgment on condition that she leave and never come back. She promised to leave by 6 o'clock tonight.
Goldie McCure, her husband, was fined for being drunk. They separated some time ago, but last week McCure was arrested for going to the home and raising a disturbance. Both have been disturbing the peace for several weeks.

AN OLD-TIME PRESCRIPTION
In a modern product. From time
immemorial sage and sulphur have
been used for the hair and scalp. Al-
most every one knows of the value of
such a combination for darkening the
hair and making it grow. In olden
times the only way to get a hair tonic
of this sort was to brew it in the
home fireplace, a method which was
troublesome and not always satisfac-
tory. Nowadays almost every up-to-
date druggist can supply his patrons
with a ready to use product, skill-
fully compounded in perfectly equip-

COLORED KNIGHTS OF PYTHIAS LODGE

PROCEEDINGS OF STATE ORGAN-
IZATION IN SESSION IN THIS
CITY.

NOTES OF THE GRAND LODGE

"We must get down to business,"
declared H. K. Jones, grand chancel-
lor of the colored Pythian grand
lodge, in session at Masonic hall,
Third street and Broadway. Resolu-
tion after resolution, report after
report were brought before the grand
lodge.

The committee on declaration of
principles submitted their report
touching upon the temperance ques-
tion and told of the evils of crime
and urged the members of the order
to lead temperate lives. It urged the
members of the order to heartily en-
dorse the efforts of the industrial
bureau department and placed stress
upon the intellectual and industrial
advancement of the race.

Co-operation with the Court of
Calamity to elevate and protect the
womankind of the race was also
urged by the committee. Speaking
further, it says: "We thank Cymbo-
line lodge, No. 19, for its hospitality;
the citizens and officers, Harrison and
Washington street churches for their
kindness to them during the session;
the railroad officials for accommo-
dation in transportation, the Paducah
Sun and the Paducah News-Democrat
for the splendid space given in their
papers, and special thanks to Dr. J.
Van Daele." The committee's report
was unanimously adopted.

A lengthy discussion was evoked,
which took up most of the morning
on the report of law and supervision.
Many constitutional points were
brought up bearing on bills and re-
ports of the committee and F. M.
Wood, Prof. E. Coleman, W. H.
Wright, the Rev. J. M. Mundy, W. R.
Dudley, B. E. Smith, W. W. Mc-
Gowan, W. W. Wilson and others.
H. E. Smith, grand attorney, recom-
mended that a traveling knight in
distress must apply to the chancellor
commander of the local lodge for
such aid, upon which application the
chancellor commander will imme-
diately communicate the chancellor
commander of which lodge he be-
longed and upon approval aid will be
given. It was filed and laid over for
action at the next grand lodge.

During the afternoon session many
important committees reported and
at 3 o'clock the body was passing
upon the reports of grand chancellor,
keeper of records and seals and mas-
ter of exchequer.

Tonight the delegation will take a
boat ride on the Ohio river. The
local committee has arranged a dan-
cing program for the occasion.

Notes on the Grand Lodge

Prof. H. F. Jones, who was re-
elected grand chancellor by the
unanimous votes of this grand lodge
was born in Henderson county. He
is a son of industrious parents, who
by good judgment and untiring en-
ergy, accumulated enough money to
purchase some farm land.

He was sent to the Henderson
schools during his early youth and
graduated with honors. He was then
sent to the Howard University, Wash-
ington, D. C., and finished the law
department. He practiced for sev-
eral years and handled cases that at-
tracted state-wide attention. Wish-
ing to take up the work of assisting
the negro to become educated, he be-
gan in the profession of teaching. He
became principal of the Alva High
school Henderson, where he is held
in high esteem by both white and
colored. His success is attributed to
his energy and ability, and more so
to his hard labor.

The Pythians of Kentucky have
again honored him with the office of
grand chancellor of the state and his
annual report was said to be one of
the best ever given to the order. He
has had many difficult questions to
handle during his administration, yet
the grand lodge has made remarkable
 strides during his term. Every dele-
gate has pledged him to help make
the Pythian lodge the strongest and
most useful to the race in the state.

Prof. F. M. Wood, who was elected
grand lecturer, is a graduate of the
State Normal Institute and is one of
the leading educators of the state.
He holds from Lebanon, where he is
principal of the colored public
schools. At the Colored State Teach-
ers' association last year at Winchester,
he was elected president. He is
chiefly known as an educator and he
expects to make the next teachers'
association one of the most largely
attended in its history by presenting
a program of unexcelled merit.

Prof. J. H. Gravin, principal of the
Oliver street high school, is one of
the delegates to the grand lodge.
Prof. Gravin is a graduate of the
State Normal Institute and State
university, Louisville. He has been
a brave Pythian knight for over ten
years and has attended eight grand
lodges.

Through his energy and faithful-
ness as a worker in the grand lodge,
he was soon to be recognized as a
man of ability and intelligence. He
was first elected master-at-arms, a
member of the board of control, mem-
ber of the industrial committee, elected
for past grand chancellor's honor
degree at Henderson, 1906. He was
later elected as supreme representative
to the supreme lodge at Louis-
ville, 1907, and re-elected at Lexing-
ton for the same honors to attend

PREMEDITATED MURDER. You Will Benefit Yourself and All Humanity By Killing Handcraft Germs.

Microbes cause baldness, falling
hair, dandruff, irritated scalp and
other diseases. It is no crime to kill
them.

Get rid of all hair or scalp troubles
by using Parisian Sage, the remedy
that never fails to kill the germs.

For sale by leading druggists for
50 cents a large bottle and in Padu-
cah by Gilbert's drug store, who
guarantees it to stop itching scalp,
falling hair, splitting hair and dan-
druft or money back.

Parisian Sage is the favorite with
discriminating women, for it will
make the hair grow luxuriant and
beautiful. It is not sticky or greasy
but it is a most delightful hair dress-
ing.

"I am a good and true friend of
Parisian Sage, as it exactly filled the
bill. It appealed to my scalp trouble
and deficiency of hair growth at once,
and while I was using the first bottle,
I also suffered with an itchiness of
the scalp which caused large sores to
form. The use of Parisian Sage took
away all the trouble, healed and re-
moved the sores, made my head feel
cool, and caused the hair to grow in
thickly. I cannot say too much in
favor of Parisian Sage." J. W.
Moody, 1906 Bainbridge St., Man-
chester, Va., April 2, 1909.

the same meeting at Kansas City
this year.

Dr. E. E. Underwood, of Frankfort,
is one of the most widely known de-
legates attending the grand lodge. He
has figured conspicuously in state and
national politics for the past fifteen
years. He is not only one of the lead-
ing physicians of his race in the state,
but is widely known all over the coun-
try for his medical ability. He was
delegate-at-large to the Chicago na-
tional republican convention that
nominated Roosevelt. Dr. Under-
wood is a Pythian of the highest rank
and is well known among Pythians
all over the country. He has been a
delegate to the Pythian lodge for the
last twelve years and this will
make his third term as representa-
tive to the supreme lodge, which
meets in Kansas City, Mo., this year.
He was chairman of the committee
that framed the present endowment
laws of Kentucky, under which such
a handsome surplus has been accumu-
lated.

Prof. W. W. Wilson is now serving
his second term as member of the
board of control. He is one of the
most energetic Pythians in the state.
He served one term acceptably as

DROWNS IN OHIO RIVER AT CAIRO; CROWD HELPLESS

Little Son of W. J. Asplan
Washed Under by Swell
From Steamer.

The Family Formerly Lived
in This City.

HIS BODY IS NOT RECOVERED.

Cairo, Ill., July 30.—A distressing accident occurred about 7 o'clock last evening in the river at the foot of Fourth street in which Willie Asplan, 14-year-old son of W. J. Asplan, the manager of the George Goodman Wholesale Liquor company, lost his life by drowning.

The lad was in the river bathing with a score or more of others. He was not an expert swimmer like most of his companions, in fact he could swim very little and to insure his safety he wore a pair of swimming wings—air tight contrivances made of rubber which are blown up and attached to the body at or near the waist to sustain it. The boy with several companions, including Lindsay Ireland, of about his own age, remained close to the shore, in quiet water between the ferry dock and two brick barges anchored about 200 feet above, while a number of the boys, expert swimmers, were disputing themselves in deeper water outside the barges. The transfer steamer St. Louis, from Bird's Point, passed up a few minutes before 7 o'clock and churned up the water considerably, but the waves were checked before reaching the drowned boy and his companion and they enjoyed the gentle oscillations she caused in the water.

It was the steamer Three States that made the trouble. She had come down from Caledonia with a picnic party of Knights of Columbus and had run into her wharf, head down stream, intending to pull out a coal barge tied up there. Her stern was swung inward toward the bank above her dock, and when she started out to pull the barge away her wheel sent a torrent of water toward several swimmers, who were directly within range. Several of them got out of the way, but the Asplan and Ireland boys were swept with terrific force toward the brick barges and the landing barge to which they were anchored, creating an irresistible current under the latter, which carried the Asplan boy under the barge in spite of his air wings and his frantic efforts to grasp the barge. The Ireland boy was more fortunate; he did succeed in getting a grip on the barge

and was able to hold on till assistance came and he was pulled out.

There were a hundred or more people on the bank, most of them sitting on the stone wall, but few realized what had happened, believing that the boy who had been pulled out was the only one who had been in danger, and none on the steamer Three States knew what had happened till they returned, the boat having merely turned around in the harbor.

The parents of the drowned boy were notified as soon as the boy's identity became known, and Mr. Asplan at once started efforts to recover his son's body. It was believed by some that the "wings" which the boy wore would bring the body to the surface, but they did not, a close watch being kept for it as long as daylight would permit. Mr. Asplan at once engaged Diver W. R. Parker, who went down about 9 p. m. and began a thorough exploration of the bottom of the river in and around the barge, but had failed to find any trace of it up to midnight. The efforts continued through the night.

Mr. Asplan and family came here from Memphis recently. Mr. Asplan was formerly agent for the Southern Express company at Paducah before joining the George Goodman company. They have a host of friends there who will sympathize with them in their bereavement, as will many in this city.

PLANNED BUCKET SHOP SWINDLE

CHAIN OF BUREAUS TO COVER
NEW YORK AND CANADA.

Plan Was Simply a Scheme to Rob
Thousands of Innocent Investors
Under Pretense of

LEGITIMATE STOCK TRADING.

New York July 30.—A plan to operate a chain of bucketshops in this city and Chicago with branches throughout the entire state and Canada, was disclosed today to officials of the Consolidated Stock Exchange. The backers of the scheme are said to be a coterie of powerful New York city politicians.

The plan proposes nothing more nor less than the plain swindling of thousands of innocent investors under the pretense of legitimate trading in stocks. As outlined, it is more audacious and of wider scope than any swindle of a similar character yet attempted. The head and front of the enterprise is said to be no less a personage than the notorious Richard E. Prentiss who shot and killed Miles McDonald, a Harlem gambler, in the Ten Eyck hotel in Albany, five years ago.

The men behind the scheme rely for success and immunity from jail in defying the anti-bucketshop law of this state, not only their pull as politicians, but also on a claim of membership in the Consolidated Stock Exchange in Philadelphia. This institution was raided recently by the police of that city, at which time it was described as an empty room, used by a few clerks for bucketshops in other cities.

It was said that these clerks assembled there at the close of each day's business and made up some sheets, at the direction of their employers, in order to give a semblance of bona fide trading to the bogus transactions of the bucketshops. The consolidated will attempt to bring about the harvest of the conspirators.

How Ridiculous!

Mr. Carper (a trifle shortsighted)—Don't you see how ridiculous those great hats become now that they are vulgarized by the lower classes?—Tunch.

"I've done had de proof dat dar's luck 'n a rabbit's foot," said Ernestus Pinky.

"What were de proof?"

"I done sold de one I've been carryin' so long to a superstitious white lady foh fo' hite."—Washington Star.

COOL CLOTHES and good clothes are obtainable now at unusual reductions. There's nothing remarkable about our clean-up sales except that we go in to clean up all stocks no matter how great the reductions necessary to accomplish it, and that the quality and newness of the goods is a strong point in our favor.

CUBAN CABINET HAS RESIGNED

STEP SAID TO BE TAKEN TO PREVENT REMOVALS.

President Gomez Will Reach Havana Today From Cayo Cristo and Consider Resignations.

RETAIN SECRETARY OF STATE.

Havana, July 30.—The cabinet crisis which for some time has been expected, reached a climax today when all the ministers, as well as the presidential secretary, Senor Castellanos, signed their resignations, which will be officially presented to President Gomez on his arrival tomorrow from Cayo Cristo. The action of the cabinet was taken after a conference with the avowed purpose of expressing loyalty to the president and of relieving him of the embarrassment of making removals.

According to rumor, Luis Octavio Divino, of the department of justice, will be succeeded by Ramiro Cabrera, Nicolas Alberdi, secretary of the interior, by Gen. Machado, now inspector general of the armed forces; Dr. Mathias du Que, secretary of sanitation, by Senor Alberdi, and Postmaster General Nodarse by Senor Morua del Gade, ex-president of the senate and leader of the Colored party.

The resignation of Benito la Gue, ruela, secretary of public works, who recently was severely criticized for the dismissal of James Page, chief engineer of construction at the Cienfuegos waterworks, and Senor Castellanos, who developed anti-American prejudices since his appointment to office, will probably be accepted.

It is practically certain that Justo Garcia Valez will be retained as secretary of state.

with much freight and many passengers; Kentucky for Joppa yesterday afternoon immediately after unloading; Bettie Owen for Brookport and regular Illinois landings; Joe Fowler for Evansville this afternoon with a good trip of freight and passengers; W. T. Harrison for Joppa with tow of ties to unload.

The George Cowling brought up an excursion last night from Metropolis and returned before midnight. Many passengers were aboard.

The Bettie Owen carried a large number of excursionists out of this port last night.

The towboat Charles Turner, of Paducah will get away this afternoon with the dry docks and a barge of coal in tow for Helena, Ark. The docks have been prepared for transportation and will reach Helena Saturday night.

A long distance telephone message was received at the boat store this morning from Capt. Dag Jones, owner of the towboat Bernice at Fairview asking rivermen to keep their eyes open for a skiff that was stolen last night from the boat. It is believed that the parties are en route here.

The Joe Fowler will not arrive in report until 9 o'clock tonight from reports received at the river this morning. She will leave soon after for a return trip to Evansville.

The Luck Fowler has been chartered for an excursion tonight by the Sunday school classes of Miss Caroline Sewell and Mrs. David Koger of the First Christian church.

The John S. Hopkins departed for Evansville at 4 o'clock yesterday afternoon with a fair trip. She will be the Evansville packet tomorrow.

The J. B. Richardson returned from Nashville Sunday night. The Kentucky will return from Joppa this afternoon and receive freight at the wharves. She leaves tomorrow evening about 7 o'clock for the Tennessee river.

The Planters' and Merchants' Packet company are contemplating resuming their service between Memphis and Caruthersville. A meeting

was held a few days ago at which it was decided to dispose of the H. W. Buttorff and secure a larger boat. If this is not done another boat will be secured to work in connection with the Buttorff. The company is planning to resume business by the 1st of September. The Buttorff is at present being repaired at Paducah.—Memphis Commercial-Appel.

Official Forecasts.

The Ohio, from the mouth of the Wabash, to Cairo, the Wabash, at Mt. Carmel, and the Mississippi, from below St. Louis to Cairo, will continue falling for several days.

The Tennessee, from Florence to below Johnsonville, not much change for 36 hours.

News of Theatres

Wallace Park.

Wallace park, with its manifold attractions, certainly proved itself a boon to many of the heat-worried people of the city last night, seeming to be the only place available where a fresh breath of air might be secured. The cooling trolley ride is no doubt considerable of a factor in inducing people to visit the park, but the amusements provided are in themselves worthy of a trip on any night. The free moving pictures are away above the average and the music presented by the band is most entertaining. A great many are also taking advantage of the pleasures afforded by the lake bathing and boating facilities. New pictures are shown in the Casino tonight, the band will play as usual and there will also be a public dance in the pavilion from 9 to 11 o'clock. The moving pictures and band concerts are free features while the charge for dancing is but 25 cents for the evening.
